Soil & Tillage Research 33 (1995) 251–252

Soil & Tillage Research

Contents of *Soil & Tillage Research*, Volume 33

VOL. 33 NO. 1 JANUARY 1995

Editorial 1

Interactions of traffic and tillage applied to cotton on N movement below the root zone of a subsequent wheat crop
H.A. Torbert (Temple, TX, USA) and D.W. Reeves (Auburn, AL, USA) 3

Soil organic carbon, microbial biomass and CO_2-C production from three tillage systems
R. Alvarez, R.A. Díaz, N. Barbero, O.J. Santanatoglia (Buenos Aires, Argentina) and L. Blotta (Pergamino, Argentina) 17

Grassland converted to cropland: Soil conditions and sorghum yield
K.B. Laryea (Patancheru, Andhra Pradesh, India) and P.W. Unger (Bushland, TX, USA) .. 29

Soil physical constraints to establishment of mungbeans (*Vigna radiata* L. Wilczek) in paddy rice (*Oryza sativa* L.) soils
S.M.F. Cook, S.C. Gupta (St. Paul, MN, USA), T. Woodhead (Los Banos, Philippines) and W.E. Larson (St. Paul, MN, USA) 47

Weed flora in the early growth period of spring crops under conventional, reduced, and zero tillage systems on a clay soil in northern Alberta, Canada
K.S. Gill and M.A. Arshad (Beaverlodge, Alberta, Canada) 65

Guide for Authors 81

Acknowledgement to referees in 1994 87

VOL. 33 NO. 2 FEBRUARY 1995

Effects of conventional and minimum tillage on winter oilseed rape (*Brassica napus* L.) in a sandy soil
E. Bonari, M. Mazzoncini and A. Peruzzi (Pisa, Italy) 91

Nutrient losses from cropland in the Central Highlands of Kenya due to surface runoff and soil erosion
M.A. Zöbisch (Nairobi, Kenya), C. Richter, B. Heiligtag and R. Schlott (Witzenhausen, Germany) 109

Characterisation of water transmission properties in tilled and untilled soils using tension infiltrometers
W.D. Reynolds, E.G. Gregorich (Ottawa, Ont., Canada) and W.E. Curnoe (Kemptville, Ont., Canada) 117

The potential restriction to root growth in structurally weak tropical soils
G.J. Ley (Mbeya, Tanzania), C.E. Mullins (Aberdeen, UK) and R. Lal (Columbus, OH, USA) 133

Book review
Soil specific crop management 143

VOL. 33 NOS. 3–4 MARCH 1995

Effect of aggregate size and soil water content on emergence of soybean (*Glycine max*, L. Merr.) and maize (*Zea mays*, L.)
M.V. Braunack (Ayr, Qld., Australia) 149
Identification of pre-existing cracks on soil fracture surfaces using dye
P.D. Hallett, A.R. Dexter and J.P.K. Seville (Guilford, UK) 163
Comparison of options for sugarcane (*Saccharum officinarum* L.) stool destruction
P.M.O. Owende, P.G. Kaumbutho, C.M. Maende (Nairobi, Kenya) and J.N. Kamau (Mumias, Kenya) 185
Traffic and residue management systems: effects on fate of fertilizer N in corn
H.A. Torbert (Temple, TX, USA) and D.W. Reeves (Auburn, AL, USA) 197
Tillage and residue management influence on corn growth
R.H. Azooz (Beaverlodge, Alberta, Canada), B. Lowery (Madison, WI, USA) and T.C. Daniel (Fayetteville, AR, USA) 215
Effects of rock fragments on physical degradation of cultivated soils by rainfall
B.v. Wesemael, J. Poesen (Leuven, Belgium) and T. van Figueiredo (Braganca, Portugal) ... 229
